

# Emergency Medical Technician Licensure and Disclosure

Revision Date: January 2025

Welcome to [Snow College's Emergency Medical Technician Certificate!](#) Snow College's EMT program prepares you for certification through the [National Registry of Emergency Medical Technicians \(NREMT\)](#) and the [Utah Department of Health and Human Services Office of Emergency Medical Services and Preparedness](#). Snow College is accredited by the [Northwest Commission on Colleges and Universities \(NWCCU\)](#).

Because emergency medical technicians require licensure, it is recommended that all students are familiar with the requirements posted on the [Utah Department of Health and Human Services Office of Emergency Medical Services and Preparedness](#) website or similar agencies within the state of interest.

There are four different levels of testing offered through NREMT: EMR, EMT, AEMT, and Paramedic. As part of these exams, there are two portions: Cognitive and Psychomotor. Snow College recommends that you complete both exam types to maintain eligibility for licensure across state boundaries.

Utah is a member of the [EMS Compact](#). Member states of this compact allow personnel to practice across state lines. It is your responsibility to apply for licensure in compact member states.

Applicants should have a valid, current NREMT certification.

Each state has set their own standards for licensure that are independent of graduating from Snow College. States may require additional course work or professional training. Below is contact information for licensing boards for US States and Territories. Snow College does not monitor the licensing requirements for non-US States and Territories. More information about Out-of-State Licensure can be found on the [Snow College Out-of-State Licensure](#) webpage.

This disclaimer is a good-faith effort of Snow College to help you understand licensure requirements across different states. We will do our part to regularly update this information, but it is suggested that all students become familiar with requirements in the state where they live or seek to practice. Individual states may require fingerprinting, disclosure of past criminal records, extra fees for licensure, or items not addressed in this document.

For more information, contact the Emergency Medical Technician Department at 435-893-2203 or the Director of the Teaching and Learning Center (who serves as the NC-SARA liaison for Snow College) at 435-283-7340.

## State Licensing Information

STATE OR TERRITORY	LICENSURE NOTES
Alabama	<b>Snow Statement:</b> Meets educational requirements for licensure. Alabama is an EMS Compact state. <b>Website:</b> <a href="#">Alabama Office of Emergency Medical Services (OEMS)</a> <b>Phone:</b> 334-290-3088 <b>Email:</b> <a href="#">Digital Submission</a>
Alaska	<b>Snow Statement:</b> Meets educational requirements for licensure. Alaska is not an EMS Compact state. <b>Website:</b> <a href="#">Alaska Department of Health</a> <b>Phone:</b> 907-465-3140 <b>Email:</b> <a href="mailto:emsinfo@alaska.gov">emsinfo@alaska.gov</a>
Arizona	<b>Snow Statement:</b> Meets educational requirements for licensure. Arizona is not an EMS Compact state. <b>Website:</b> <a href="#">Arizona Department of Health Services</a> <b>Phone:</b> 602-364-3150 or 800-200-8523 <b>Email:</b>
Arkansas	<b>Snow Statement:</b> Meets educational requirements for licensure. Arkansas is not an EMS Compact state. <b>Website:</b> <a href="#">Arkansas Emergency Medical Services</a> <b>Phone:</b> 501-661-2262 <b>Email:</b> <a href="mailto:ADHEMS@arkansas.gov">ADHEMS@arkansas.gov</a>
